

**Making Tourism Accessible for Visitors
who are Blind or have Low Vision**

Introduction

Project Background

In 2023 Queensland Braille Writing Association (known as Braille House) was one of only five successful applicants to be awarded an Accessible Tourism Enabler Grant by the Queensland Government (as part of its 2023 *Year of Accessible Tourism*).

Since late 2023, Braille House has been advancing the project, engaging in a collaborative process amongst stakeholders to ultimately enable people who are blind or have low vision to function more independently and with equity and dignity in the tourism and visitor setting.

The focus of the project is to deliver an online package of resources to accommodation, hospitality and tourist and event destination providers. The materials are designed to assist these businesses to:

- better understand the blind and low vision visitor business case
- undertake a self-assessment audit of facilities, staffing, procedures, customer experience, and marketing and communication to identify barriers, gaps and areas for improvement
- develop their accessible tourism business strategy
- enhance their provision of accessible information and marketing, particularly to blind and low vision visitors.

Project Framework

The key elements of the project include:

- **The Business Case**
 - At a Glance
 - In Detail
- **Self-Assessment Access Audits**
 - Framework and Guidelines
